**QRRRA Wivenhoe Neighbourhood Plan Group – Feedback**

Dear Marika,

Thank you for the opportunity to provide feedback to the Wivenhoe Neighbourhood Plan Group on behalf of Queens Road Residents Association.

In 2007 Colchester Borough Council commissioned QuBE Planning Ltd. to carry out a public consultation of a proposed extension to the then existing Wivenhoe Conservation Area.

The outcome was overwhelming support for the proposal. The proposal was formally accepted but never implemented due to constant cut backs and changes in the CBC department responsible for organising the adoption of the extension.

The implementation of this extension will make the single largest contribution to the protection of the character of our town as we develop it to meet future opportunities.

Queens Road Residents Association (QRRRA) request that the agreed implementation of the extension to the conservation area be adopted as planned. In addition to the positive benefits for Wivenhoe through this approach it will also ensure that the money paid to QuBE Planning Ltd will not have been wasted.

Yours sincerely

Daryl Williamson  
Chairman Queens Road Residents Association (Wivenhoe)
